

# Constellations weekend with Sound-Healing in Babaji Ashram

4 - 5 November 2023

A weekend to bring more peace into your environment and into the world.

**Loneliness - quarrels - job - love - relationship - chronic illnesses - the same heavy thing again and again – missing of inner children - collective life systems - current and ancestral family ties.**

Everyone has their say !!!

*Just as the light of light shines in the darkness, so also the truth shines.  
Therefore one should always follow the path of truth - Bhagavad Gita -*

**Family constellations** are bringing harmony into our daily lives. They help to find peace and they balance distortions, abuse, lack, unspoken things and conflicts.

Let the truth shine and actively participate in your self-realisation! The harmonious balance reaches then all members involved in our systems.

**Sound-Healing** through my voice is my unique speciality. Sound-Healing will accompany the constellations repeatedly during the days.

An extra Sound-Healing-Meditation will be held on Friday evening and is also open to those who are not participating in the constellation weekend.

The weekend will take place in the German Babaji Ashram with full board.

Constellations will take place throughout the days between Ashram ceremonies.

It is recommended to attend the morning and evening sung prayers in Sanskrit and Hindi (Arati).

There will also be fire ceremonies in the early morning hours on both days. These light-filled opportunities will sustain us through the intense weekend.

**The weekend is open to all:** Beginners and experienced, and can be conducted simultaneously in German, French and English.

**Maximum participants :** 12
